CALL FOR ASSOCIATE PARTNER PROPOSALS

Institute of Oceanology – Bulgarian Academy of Science, Varna is opening a procedure for selecting associated partners for the project proposal for “**Sustainable Management of the Marine Environment and it’s Resources - SUMMON**”, funded by the Operational Programme “Science and Education for Smart Growth” 2014-2020 (OP SESG), Priority Axis 1. Research and technological development, procedure title: Creation and development of Centers of Excellence, Specific Objective 1. Enhancing excellent and market-oriented research.

For the purpose of this call, **associated partner** means: all natural persons and legal entities and consortia thereof constituting an interested party with regard to the project implementation and involved in the implementation of the project activities but which do not spend grant funding.

Eligible associated partners under the procedure will be legal entities supporting the project implementation. The expenditure incurred by the associated partners will not be eligible for reimbursement under the Operational Programme. However, the expenditure planned at the application stage with the project proposal incurred by associated partners must be included in the total cost of the project/planned benefits, including in the co-financing under item 10 of the Guidelines for Applicants and item 6 “Financial information – sources of funding” of the Application form.

Grant applicants:

Institute of Oceanology – Bulgarian Academy of Science: leading organization

Institute of Biodiversity and Ecosystem Research - Bulgarian Academy of Science: partner

Institute of Fishery Resources – Bulgarian Agricultural Academy: partner

Institute of Fisheries and Aquaculture – Bulgarian Agricultural Academy: partner

Biological Faculty, Sofia University: partner

Faculty of Physics, Sofia University: partner

Bulgarian Antarctic Institute: partner

Under this procedure will be approved all candidates that execute research and development activities and/or innovations in the area of:

- Bio-technologies serving the needs of healthy life and aging;
- Blue” technologies and application of new methods and technologies in sustainable use of sea and river resources;
- Production plants for the extraction of clean electricity and industrial water;
- Green economy.

or organizations that execute activities related to the dissemination and implementation of research results in the same area.

All interested parties must submit the following documents (where applicable):
